NATIONAL ARCHIVES MICROFILM PUBLICATIONS

INTRODUCTION

On the 225 rolls of this microfilm publication are reproduced the compiled records that give the military service histories of units in volunteer Union organizations. The compiled records are card abstracts containing information relating to the stations, movements, or activities of each unit or a part of it, and frequently to its organization or composition, strength and losses, and disbandment. Sometimes the names of commanding officers, the dates the unit was called into service and mustered out, the terms of service, and similar information are included.

The compilation of records of service by military units of volunteer Union organizations was undertaken simultaneously with the compilation of the service records of volunteer Union soldiers. The work was begun in 1890 under the direction of Capt. Fred C. Ainsworth, head of the Record and Pension Division of the War Department. The abstracts were made from original muster rolls and returns in the custody of the War Department and from rolls borrowed from the Second Auditor of the Treasury. The abstracts made from the original records were verified by a separate operation of comparison, and great care was taken to ensure that the abstracts were accurate.

Most of the compiled records reproduced on this microcopy are arranged alphabetically by State or Territory. The remainder are for units that were not limited to any one State or Territory; among them are the U.S. Colored Troops, U.S. Volunteers, and U.S. Veteran Reserve Corps. The records are further arranged by organizational breakdown under each unit.

Most of the compiled records for each organizational unit are in jacket-envelopes bearing the title "Record of Events" and giving the name of the unit. Many of the cards contain abstracts of the record-of-events information as found in original muster rolls and returns. Also included are some cards showing the exact captions of the muster-in and muster-out rolls that were copied and the certifications by the mustering officers verifying the accuracy of the rolls. The jacket-envelopes for a few units contain no documents but do contain references to other units with which these units were merged. In some instances the references concern transfers of documents.

Preceding the jacket-envelopes for the organizational units there sometimes are envelopes containing general notation cards giving information relating to the units. Some of the notations are statements of determinations made by the War Department concerning the service of the units; others contain information that was found in original records other than muster rolls and returns.

NATIONAL ARCHIVES MICROFILM PUBLICATIONS

There are some card abstracts made from returns that are not in jacket-envelopes. These abstracts were accumulated by the War Department to be interfiled with the regular abstracts but were not interfiled, for one reason or another. The usual reason was that the abstracts made from returns were compiled later than those from muster rolls and in some cases the War Department failed to complete the filing of them. The National Archives has collected all the unjacketed abstracts that could be found for each unit and has filed them immediately after the jacket-envelope containing related abstracts for the unit. A card labeled "Additional Card Abstracts of Records" has been placed at the beginning of each set of unjacketed abstracts to distinguish them from the ones that are in jacket-envelopes.

The National Archives also has compiled service records of the volunteer Union soldiers who served in the units whose service histories are reproduced in this microcopy. They consist of a jacket-envelope for each soldier, labeled with his name, his rank, and the unit in which he served and typically containing (1) card abstracts of entries relating to the soldier as found not only in original muster rolls and returns but in other original records such as hospital rolls, descriptive books, and lists of deserters; and (2) the originals of any papers relating solely to the particular soldier. In a few instances there are compiled service records for volunteer Union soldiers who served in units for which there are neither record-of-events nor general notation cards; consequently, there is no record of such units in this microcopy. These units generally served only for short periods (about 1 to 3 months) or failed to achieve a complete organization. There are card indexes that may be used to locate the compiled service record of a volunteer Union soldier. Most of the indexes and some of the compiled service records of volunteer Union soldiers have been microfilmed.

The compiled records showing the service histories of units in volunteer Union organizations reproduced in this microcopy, the compiled service records of volunteer Union soldiers, and the indexes to the latter are part of Record Group 94, Records of The Adjutant General's Office.

51 enlisted men lost in this month; part of them deserted, part of them missing in action, while the rest was taken prisoner when straggling on the march.

Through the whole month of August 1862 the Regiment was in constant and continuous engagements, and being the greater part of the month under way. The Regiment took a prominent part in the battle at Bull Run, on the 29th & 30th day of August, being almost constantly under the enemy's fire. The heavy losses in the commissioned grade show how actively the Regiment was engaged. It was on the retreat towards Centreville, on the 31st day of August, that the Regimental Quartermaster was ordered to burn our Regt^l wagon, containing

Fall Gate and encamped, remaining there until the afternoon of the 28 of Nov. when we received orders to cross the River and join the Division of General Sumner, near Alexandria, Virginia; having no guide and not knowing the direct road, the Regiment took the wrong one, and continued marching until about 10 P.M. bivouacked for the night, and in the morning marched beyond Benton Tavern, to the extreme outpost of General Blaker's Division; then learning our positions, countermarched, and soon arrived at the locality reserved for our use, near Fort Worth, designated as Camp California, where the other Regiments lay, forming the 3 Brigade, Commanded by Genl. W.H. French.

The Regiment was detailed for Picket duty at Edcull's Hill, Virginia, on the 26th day of December, 1861, and remained there until the 30th inst. when we returned to Camp California. During the time we were on Picket, several scouting parties were sent out. One on the 27th composed of Co. RECORD OF EVENTS.

The Regiment marched on the 12th inst to Exalls Hill relieving the 66th N. Y. from picket duty. Nothing of interest particularly occurred while there: a scout was made one night as far as Bull's station on the rail road which resulted in a failure as far as the attempt to find insurgent outposts was concerned. It was ascertained however that parties from their forces frequently come up as far as that place, and are always warned by the reinforcements, there and given whatever information or aid was possible.

RECORD OF EVENTS.

*This Company with the Regiment
marched on the 12 inst, to
Edsall's Hill upon posted
duty relieving the 6th Regt
N.Y.V. Nothing of particular
interest occurred excepting
a scout made by volunteers
from the whole Corps in which
about half of Company H.
participated, which was
continued nearly the whole
of one night - as far as Punkie
Station on the O. & N. R. R.
Information was obtained
that parties from the insurgent
forces frequently came up to that
place, and were always given the
aid and service that they desired.
We returned to Camp on the 16th
inst - being relieved by the 69th Regt. N.Y.V.*
